TWO YEARS IN PEN

Arraignment of Prisoners Indicted by the Special Grand Jury This Week.

NEXT WEEK TRIALS HELD

In Cases Where the Prisoners, In cluding Heckathorne, Pleaded Not Guilty.

EAST LIVERPOOL'S LARGE ARRAY

Lisbon, June 28.—(Special)—By reason of the illness of Prosecutor J. H. Brookes, Judge Hole has appointed Attorney C. S. Speaker to act in the capacity of assistant prosecuting attorney. Mr. Speaker accepted the appointment and filed his bond in the sum of \$1,000 and entered at once upon his duties in the grand jury room. The special grand jury is composed of the following persons: Robert Johnson, foreman, W. C. Morron, A. B. Parfit, house. J. P. Frew, Frank Zimmerman, A. King, R. G. Eells, Abram Moore, John Prosser, J. J. Adams, George Arter, S. D. Longshore, Charles Moore, Clyde Kenty and John Baxter. Thirty some witnesses were subpoenaed.

The jury made its report yesterday and the prisoners indicted were arraigned before Judge W. W. Hole yesterday afternoon.

Sidney Burroughs, of East Liverpool, pleaded guilty to cutting with intent to wound. He slashed Frank Beatty's

throat with a razor. Before passing sentence Judge Hole

said to the prisoner: "How old are you?"

"A little past 21," replied Burroughs.

"Have you ever been in prison?"

"Yes, sir.

"Where?"

"In the penitentiary at Columbus," said Burroughs, "but since I served my term I have been working and trying to lead a straight life, and this is the first trouble I have been in since I came out. I would not have got into this difficulty had I not been under the influence of liquor."

"My inclination," said the judge, "is to give you a reformatory sentence on account of your age, but the fact that you have served a term in the penitentiary precludes me from showing you this leniency. The sentence of the court is that you be confined in the Ohio penitentiary and kept at hard labor, but not in solitary confinement, for a period of two years."

Burroughs served a term in the penitentiary on a charge of grand larceny.

Pleaded Not Guilty.

John Fox, of East Liverpool, pleaded not guilty to the charge of having lowing officers were installed by D. D. cut John Bennett with intent to Ann Massey: W. P., Sarah A. Bar-

LOOK AT THE CARD.

You Can See It in the Front Window of the News Review Job Office.

The card was sent to the postmaster of this city, Will H. Surles, and by him handed to the manager of this paper. It will give you an idea of the horrible condition of the sufferers in India. Out of your plenty, give a little to these suffering ones. Give in the right spirit and from the right motive and God will surely bless you in His own good time. We will very gladly receive your contributions and forward the same. We will always pay the cost of forwarding the sums contributed, no matter how small or NEWS OF THE POLICE COURT how large. All money left at this office will be forwarded, at once, to the Christian Herald, Bible House, New York, from where it is forwarded at once, by telegraph, to India, thus giving immediate relief to sufferers. You may save human lives by contributing but a small sum. "The Lord loves a cheerful giver." "Even as ye did it unto one of these, the least of my little ones, ye did it unto me."

A MAD DOG.

Chief Thompson Killed One This Morning Which Belonged to W. S. Dailey.

A fox terrier owned by W. S. Dailey, corner Fourth and Jefferson streets, went mad yesterday and spent the night wandering around the streets. This morning it returned home and was fastened in the cellar at the home of Mr. Dailey, who wanted to have it chloroformed, but he could find no person willing to undertake the job, as the dog was too fierce and would make a spring at the doorway every time any person attempted to open it. The animal was shot by Chief Thompson. The dog had been acting strangely for some time and Mr. Dailey had been treating it.

One East End Young Man Before His Honor For Riding on Sidewalks There.

Mayor Davidson says he is willing to permit the bicycle riders of the city to have everything in reason, but they must not forget that there is an ordinance in the city which provides that they shall not ride more than two abreast, shall have bells on their wheels and must not ride on the sidewalks, or cross crossings at a greater speed than eight miles per hour, or ride without their hands on the handle bars. He says that the ordinance is repeatedly violated in the city and unless the riders are careful they will be compelled to live up to the full letter of it, and the first person found violating it will be arrested and fined, as he has become tired of the numerous complaints presented to

Last night a young man named Doty from the East End called on the mayor at the request of Officer Hamilton. He had been riding his bicycle on the sidewalk in that part of the city. He was totally ignorant of the ordinance on the subject and the mayor dismissed him with a warning to be careful in the future.

James Davis, who was arrested on a charge of drunk and using profane and abusive language, was fined \$9.60 by Mayor Davidson. The trouble with his wife occurred across the river and he could not be fined for it in this city.

Mrs. Mollie Brown called on the mayor last evening and wanted to make a complaint against Mrs. Neal Laird, claiming that Mrs. Laird had called her hard names. The mayor heard the story, but would not take the case until Mrs. Brown put up security for the costs.

BOOZE BUZZINGS.

Whisky, Brandy, Ale, Beer and Wine Are Very Badly Abused.

Editor News Review-Is not the liquor league badly abused by our government? And is not the saloon shamefully maltreated? Let us reason the matter together.

Certain councilmen have solemnly said that were it not for the saloon existing in our midst, grass and weeds would grow up in our public streets; prosperity would take to itself wings and fly away; our workingmen would desert the potteries and hie themselves away to more congenial, blessed, prosperous, peaceful and soul inspiring surroundings, where the blessed saloon could contribute untold delights

and add strong and enduring muscles

to their exhausted and enfeebled

physical frames.

In the light of these statements of wise (?) men, is it not a shame that our government should compel saloon keepers to take out a license and pay for the same an exorbitant amount of that, the love of which is the root of all evil? Is it not a shame that the government does not remove the said tax and grant a premium to these harbingers of peace and prosperity, the and quintessence of industry, rising pany within the village limits provid- thoroughfare is unimproved by paving. with the lark in the pushing and advancement of their business, and continuing in the same until another lark visits their manufactory (?) the next morning; yea, verily, who are willing to and do continue at work, night and day, even upon the Sabbath? Would George Fetterman, of This City, Who it not be the right thing, Mr. Editor. to get up an indignation meeting and solemnly enter our protest to the government against its abuse of this noble and unselfish class of men, the such happiness and content into the homes of our workingmen; such abundance of food to hungry children; such good order and absence of profanity upon our public thoroughfares; such an abundance of savings to our savings banks; such a number of their patrons to the churches; such delights to hearts of fathers and mothers; such through the crevices of the brick upon our sidewalks and public thoroughfares. Why, Mr. Editor, the very cobble stones in classic Jethro should rise up and hurl themselves against DEPARTMENT OF THE INTERIOR, any government, national, state or municipal, which would dare to thus angels in disguise, our noble and unselfish Samaritan-like saloon keepers.

Veteran Soldier George Fetterman, who was aresident of Youngstown for saloon keepers; these men who bring years and laid sidewalks for Finch, Mauser and others, but moved away to Wellsville in 1886, and is now living sweet peace to patient wives; such in East Liverpool, is in the city stopping at the Central hotel, says the Youngstown Vindicator. He is blind, his loss of sight being due to a sunstroke and a wound in the head whilst in the service.

Mr. Fetterman is drawing a beggarly pension of \$12 a month, but made apdestruction and annihilation of the plication for \$72, to which it is certain grasses and weeds which crowd up his affliction entitles him, if any crippled or infirm soldier is entitled to that sum.

His declaration under the general law for wound of head and resulting total blindness, filed April 5, 1900, is merely a duplicate of a claim filed Oct. 28, 1887, which was rejected November 18 1890, on the ground of no pensionable disability from alleged wound of head and loss of sight not being a result

HE WAS MAD.

There Could Be No Doubt About the Condition of This

Canine.

He was lying prone upon the pavement of Forest street, dreaming of the glorious days to come in the happy hunting grounds. A small boy, in possession of a package of fire crackers, appeared upon the scene of action. The youth succeeded in attaching the said explosives to the said canine's caudal appendage without attracting the attention of the sleeping and dreaming animal. Then a match was struck and the explosives were ignited and the circus began. The dog realized that something was wrong as he made an astounding leap into the middle of the highway, terrifiedly gazed at the rear portion of his anatomy, was momentarily shocked into quietude by the horror superinduced by the situation, and then tore down the highway with great leaps, while he gave tongue in a manner and style which convinced pedestrians that he was the worst scared and maddest dog in all this neck of woods.

CROKER TO SEE BRYAN

Going to Lincoln, Neb., For a Conference.

BRYAN WANTS TO MEET SULZER.

Said to Have Asked For an Interview. Campau, of Michigan, Mentioned For Second Place-Declaration of Independence to Be Read at Convention.

Kansas City, June 28.—Congressman William Sulzer, who is being boomed for vice president on the Democratic ticket, and Richard Croker and ex-Senator E. G. Murphy, of New York, will have a conference at Lincoln, Neb., with William J. Bryan before they come to Kansas City to attend the national convention.

Sterling Price, of Texas, who has opened headquarters here for Mr. Sulzer, received a telegram from that gentleman, saying he had left New York for Lincoln. Another telegram said Messrs. Croker and Murphy will be in the Nebraska capital on Friday night. Mr. Sulzer hopes to be on the ticket with Mr. Bryan, and it is said the latter expressed a desire to confer with him. Further than this Mr. Price would vouchsafe nothing.

President O'Connell, of the Sons of Liberty, the oldest organization in New York, was on his way to Kansas City, and will, it was said, open headquarters for Sulzer this evening or Friday. Fred Feigl, editor of the Tammany Times, another Sulzer boomer, may arrive Friday. The Pennsylvania delegation is due Sunday morning.

A convention innovation, the reading of the declaration of independence from the platform, will be introduced at the first session on July 4 and, according to the present program, the music and decorations of that day will be selected with a particular idea of commemorating the national idea.

The badges for the delegates have been received. They are an elaborate affair. There is an oxidized silver bar for the pin, below which hangs a silk flag about four inches long. To the flag is attached a medalion of gold or oxi-

dized silver.

DETROIT, June 28.—Daniel J. Campau, chairman of the Michigan Demo cratic state central committee and member of the national committee, was said to be in receipt of many letters from various states, urging him to become a candidate for the vice presidency before the Kansas City convention. Mr. Campau declared himself only as anxious to see the vice presidency go to a state which would draw the most, otherwise doubtful votes to the ticket.

Mr. Campau's political secretary declared in positive terms that Campau's name would be presented to the Kansas City convention as a vice presidential

candidate. Later, Mr. Campau said: "I am not

a candidate, and my name will not be presented at the convention."

JR. O. U. A. M. INSURGENTS.

Convention Transacted Some Business at Lancaster, Pa., and Adjourned.

Taylor Wovensmith and elected in their places William A. Pike and Dr. S. D. Woods respectively. Acting Secretary Moench was directed to instruct the state secretary to conform to the orders of the council and to assume the office it Moench refused to obey the instructions.

The law committee was directed to draft a law making the state council a purely representative body, the past officers thus being barred out. It was decided to withdraw the proceedings in the supreme court, and a committee was appointed to look after the withdrawal of the Pennsylvanians in the National Orphans' home.

The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is heaithy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach. GOD PITY SUCH A CITY. God have pity upon a city whose citizens depend upon the saloon for its prosperity and success.

RECORDS.

can be justly proud of and thankful East Liverpool and you cannot get for. And then there are some records that should and will be marked and chronicled, in time and eternity, as just the opposite.

DECORATE.

East Liverpool is usually as patriotic in the matter of decorations on the nation's birthday as any town in the country, but it is urged that on the Fourth of July this year especial effort be made to have the town look its best, and it is suggested that every citizen decorate his place of business and residence with the national colors. The visit of the Uniform Rank, Knights of Pythias, to this city for the competitive drill and other contests will be the main feature of the day in East Liverpool, and the suitable decoration of the city will not alone show the patriotism of the people, but will be an evidence of the warm hearted welcome which awaits the visitors from every resident of East Liverpool. Do not forget to decorate. Put the city in gala dress and show the visitors that the patriotism of the Ceramic City is matched by its hospitality.

OUR SOLDIER BOYS.

We refer to the men who are now fighting the insurgents in the Philippine islands, and the blue jackets and marines who may be compelled to face great numbers of a common foe in China. These are gallant and brave men, worthy of our warmest commendation; men who will face any danger at the word of command, and flinch under no circumstances. There are no braver soldiers on earth than those of Uncle Sam. Isn't it a burning shame that men can be found here at home who will give every aid and comfort to the open enemies of the United States, and thus stab our own gallant men in the back? Would it not be just and right to declare such miserable creatures traitors, and subject them to the fate and punishment that awaits treason? Is there not a point at which forbearance ceases to be a virtue, and has not that point been reached by fellows who give aid and comfort to the enemies of our

I've put up nice sums for them in this manner, giving money and prizes to draw a crowd to East Liverpool, always asmy goods; but say, old man, it makes the loudest for the supremacy of the me smile when I think how easy I have been. I have had this game played on me for years, and I've never known the time when a single one of those gala days did me any good. The crowds came, to be sure—came that offered for the plank that Mr. for a high old time and to booze to the queen's taste. VERY FLIMSY.

Very flimsy are some of the socalled arguments indulged in by the advocates of the saloon and liquor the West End chapel will entertain at

workmen to remain here. Why, my dear sir, they would refuse to work at any price if they could not procure their booze regularly." A moment later, evidently forgetting his former statement, the same advocate said: "Bar the saloon out by the action of council, and you will only make matters worse. Clubs will spring up all over the city, and more liquor will be drank in consequence than when the saloons had full swing." He soon brought those boozing workmen back should bar the saloon out; grass would grow upon our streets and business would stagnate." A short time afterward the same man said to the writer, referring to the saloon keepers of the them in this city, they're the poorest pay of any class of business men I'm acquainted with. They'll beat you down in price to the lowest notch, and afterward beat you out of the account altogether, looking you in the face unblushingly and telling you you cannot collect anything, as they possess no property." The solid truth of the matter is that the saloon has no claim upon life in our midst. It is a blight upon business, a block upon real prosperity and a curse to the home life.

OH, THE ABSURDITY.

Oh, the absurdity! Oh, the ridiculosity! Oh, the blockheadism of a sane man asserting that the prosperity and welfare of this city depends upon keeping the accursed saloon in our

A KINDLY THOUGHT

Misinterpreted Causes Much Annoyance and Deprives Children Of a Trip.

A certain mother in town, expecting to take her children to the country during the months of July and August invited a few friends (about 15) who had little ones, to send them out for the fresh air and she would give them a few kindergarten drills for the benefit of the children in the open to East Liverpool, didn't he? Another air. As she expected to have no well known citizen, who takes a little household cares she suggested this red eye for his stomach's ache occa- for the pleasure of her own little sionally, said: "Why, my dear sir, our ones and those of her friends. The city would go to wreck and ruin if we hackman was to be paid for his trip by the mothers and the children were delighted at the idea of going to the country. She has had to relinquish this idea of giving pleasure to the little ones, much to the disappointcity: "They're a mighty poor and ment of her friends, as she has no mean lot. Outside of five or six of ambition to pose before the public as a financier, and the impression seems to be that it is a business affair, much to her chagrin.

In his volume on "Present Day Egypt Frederick Penfield thus describes one of the interesting sights in the neighborhood of the pyramids. the incubators in the native villages. "It will be found," he says, "that the incubator is constructed of sun dried bricks and so arranged internally that the eggs, placed in mud constructed ovens on trays cushioned with cut straw, are constantly under the attendant's view. No scientific apparatus is employed by this man, not even a thermometer. He knows from experience and his own feeling how much heat is needed, and he systematically turns the eggs several times each day until they are developed into peeping

"These hatching establishments exist throughout middle and upper Egypt and in a season bring fully 20,000,000 chickens into the world that grow up o be scrawny, unattractive fowls. The industry is thousands of years old and seems conclusively to settle the question of a chicken's maternity by allocating that parentage to the hen laying the egg.

"The incubator is a foster mother only and is responsible for stiffing the 'setting' instinct with Egyptian hens. The keepers of the incubators have a system of traffic with peasant farmers by which eggs are purchased outright or six live chicks given in exchange for a dozen fresh eggs."

Death to the Workmen.

It was in an art store in Fifth avenue, and the dealer was showing gilded clocks and candelabra to a customer. Pointing to one particularly handsome set, he said, "That is worth \$350." Pointing to another of similar pattern, but not so handsome, he said, "That is worth \$600."

"But the other one is better," said the customer.

"Well," said the dealer, "the chief value of this one (pointing to the \$600 affair) is in the gilding. It was gilded by the mercury process which is now forbidden by law almost everywhere. The other one was treated with the electroplating process."

"Well, it's handsomer," said the customer. "Is it as durable? If it is, why should I pay \$250 more?"

"It is practically as durable, and it is handsomer," said the dealer. "But you can duplicate it, and you can't duplicate the other. The mercury process of gilding was death to the workmen who engaged in it. They inhaled the fumes of the mercury, and in the end it killed them, and it wasn't long doing it, either."

"I'll take the mercury one," said the customer, "but the other is handsomer."-New York Sun.

The Cossacks of the Don.

The Don Cossacks are the finest looking race of men ever seen. Kingly in their carriage, tall and slender, lithe and graceful, their untamed spirit visible in every motion, their bearing is that of an unconquered people. Used as a living barrier against the Tartar invasions of Russia, they were never conquered. Living in what they call camps, each with his horse and gun, they are always ready to move in response to the emperor's call.

Their costume is a long, tight fitting coat reaching to the knee, having loose sleeves and a small, standing collar and with a row of ammunition pockets across the breast. The colored belt which encircles the Cossack's slender waist bristles with ornamented knives, daggers and pistols. Soft, high boots without heels and a great lamb's wool cap, with a little touch of color for the soft crown, and then the burka or long cape of hairy felt which they seem to wear in all sorts of weather complete the costume. These burkas appear to be worn on the theory that what keeps out the cold keeps out the heat. Anyway, these long black or white garments protect horse and rider equally from the rain and cold.-Self Culture.

His One Suggestion.

"Furthermore, John Henry Meeker," said Mrs. Meeker, who was standing in front of the mirror and putting the finishing touches to her toilet, "I want you to take notice that I am perfectly capable of getting ready for church without any prompting from you, and you can cough and look at your watch as much as you please-it won't hurry me a single second. Do you clearly understand that?"

"Yes, my dear," mildly replied Mr. Meeker, "though I think I could understand it a little better if you didn't have your mouth quite so full of hairpins."-Chicago Tribune.

ODD OIL STRIKE.

A Company Formed to Develop Field Near the County Infirmary.

Oil has been discovered on the farm of Mr. A. A. Fink, four and one-half miles south-west of Lisbon and three miles south of the county infirmary, or about twelve miles south of the city. A stock company, consisting of 14 Salem capitalists, has just been formed to develop the territory, says the Salem News. The company has secured options on more than 1,400 acres in the vicinity, and drilling will be commenced in a few days.

The presence of oil on the Fink farm has been manifested in a peculiar and unusual manner. This farm is situated on the summit of an elevation which includes the highest point in Columbiana county. On the topmost point lies a small basin, with no oil bearing rock above, and by digging to a depth of six feet in this basin a peculiar oil bearing sand is found which yields at least one-tenth of pure petroleum. The projectors think this unusual phenomena will bear investigation and are confident of striking oil in paying quantities.

A good pressure of gas was struck three miles west of that point two years ago, and also two and one half miles northeast of the same territory. Oil speculators from Wellsville and Scio are trying hard to secure options in the vicinity of the new scene of operations.

Diamond Ring Recovered.

Chief of Police Thompson was notified last evening by one of the workers at the National House that a diamond ring belonging to him was missing, and that he believed it had been stolen. Evidence pointed to the guilt of a girl employed in the house. The girl was at the depot and met a friend who came in on the train. The two girls started up Second street. Thompson followed and the girls started on a run up Union street. As they neared Third street one of the girls threw a package of candy into the hallway below Dr. Thompson's office. The officer caught the girls soon after. The diamond was found among the candy and was returned to the owner.

Bullfrog or Conscience.

"Are you one of the officers of the treasury department?" asked the man with the bloodshot eyes.

"I am assistant secretary of the treasury." was the reply. "What can I do for you?"

"Well, it's rather a confidential business, and I don't want it to go any further, but I've come to pay the government some money that I guess I owe it fairly. I came back from Europe some time ago with some dutiable goods concealed about me and got past the revenue officers with them. I figure that I beat the government out of about \$6, and I've come to square up and get the matter off my mind."

"Well," responded the assistant secretary, "we have what we call a conscience fund, and as this seems to be a case of conscience"

"I don't know that it's my conscience that troubles me," said the visitor, "but I do know there's a big bullfrog that stays in a pond near where I live, and he keeps me awake, night after night, with his infernal 'cough up, cough up!' and I've got tired of it."-Chicago Trib-

A FISH-CATCHING FISH.

He Has a Mouth One-third the Sise of His Body.

Most remarkable of strange fishes is the angler fish, whose very name seems a paradox. The fishing fish is nevertheless a reality and a stern one to all that approach those awful jaws of his. With a body the color of mud he generally lies in the shadow of some rock on the bottom of the sea, waiting motionless for the approach of his prey. He is provided with an odd kind of fin just over the mouth, and this is held out in front of him to give warning of the coming of something to be swallowed. One taken alive was experimented on, and it was found that if this projecting fin was touched with a stick, even though the stick did not come near the mouth, the jaws closed convulsively. This shows that the fin. by some provision of nature, closes the jaws as soon as it is touched.

The mouth is tremendous, growing to the width of a foot when the whole fish is only three feet long. One of these anglers was caught not long since, and, though it was only 25 inches long, a fish 15 inches long was found sticking in its throat. The angler is provided with peculiar teeth set in double or treble rows along the jaws and at the entrance of the throat. Some of these teeth are a foot long. He is not a pretty fish to look at, but he attends strictly to business and will swallow anything that touches his warning fin, whether it is meant for food or not.

All kinds of things have been found in the stomachs of anglers, from bits of lead and stone to fish almost as large as the angler itself. This is without doubt one of the most peculiar and interesting fish in the whole ocean.-St. Louis Globe-Democrat.

MASTERING CHINESE.

One of the Most Difficult of Languages to Learn.

It is well known that the Chinese language is one of the most difficult to master, and for us to attempt this task after we have finished our school years is excessively trying and difficult. Certainly the mistakes one hears of as being made by those who begin to talk and, worse still, preach in a language Last evening at 7:30 o'clock at the they fondly imagine they have mastered are ludicrous in the extreme.

I heard of a clergyman who was preaching to a Chinese congregation in the vernacular. "Come to God, oh, my friends; come to God!" he cried (or thought he did) and was considerably surprised to find some of the congregation with broad grins on their faces, while others were frowning blackly. 1c; 1.000 bolts 8c paper at 2c; 1,000 Great was the good man's consternation when he found he had been saying, "Call the pigs, oh. my friends; call the pigs!" His mistake, I believe, was due entirely to putting the accent on the wrong syllable, which altered the whole sense of the words.

The Chinese seem to regard a forson regarded women preaching. "It is like a dog standing on his hind legs,' said the learned doctor. "You are not struck with admiration at how well he does it, but you are surprised he can do it at all."-Leslie's Weekly.

A Perilous Profession.

"My son is learning to be an electrician."

"Well, I suppose he knows pretty well what to do by this time."

"Oh, no; he isn't half through yet learning the things he mustn't do."-Chicago Record.

CAN THIS BE TRUE?

League Speak the Truth?

Editor News Review-I have the assurance, from an absolutely reliable source, that one of the leaders of the Liquor league of East Liverpool lately approached a member of our present council, and tried to secure the solemn promise of that member that he would vote against the ordinance forbidding the saloons to do business in this municipality, stating that five members had already given their solemn promise to this effect, and that but one more vote was needed in order to make the liquor and saloon element safe and secure in their traffic in this city. The member I refer to was not offered any bribe or pecuniary reward for his vote, but he was given to understand that he would be well taken care of by the league.

Did this fellow falsify when he stated that he had five men solid for the saloons and liquor league? We believe that he did. We know some of the men who voted to table the ordinance last night. Two of them are our personal friends. If we believed this fellow of the liquor league, we would be compelled to believe that our friends are lost to all sense of honor and manhood; that they had pledged their unqualified support to the rum traffic, and would vote in its favor every time, and are not open to the appeals of argument, right, justice and fair play. We do not believe this fellow. We still believe in and trust our friends, and will continue to do so until, by their actions and ballots, they have proven themselves to be unworthy the respect and esteem of all advocates of clean government and sober life.

Franklin township, held a reunion near Salineville recently. This was the eighth annual reunion of this district. About 1,500 persons, most of whom have attended school in that district, were present, and the occasion was one of rare pleasure to all old school mates who thus had a chance to meet and recount former experiences.

The exercises of the day added much to the pleasure of the gathering. A warm welcome to the visitors was expressed in a neat speech by Prof. Earl Hayes, of Salineville, the present teacher of the school. Prof. McCrea, of Pittsburg, responded in an equally pleasing manner. Prof. McCrea taught in the Silver Ridge district 44 years ago. On the program also were other teachers and prominent persons connected at some time with the

The reunion was a delightful one and one that will long be remembered by the Silver Ridge graduates.

MINISTERS IN PERIL.

Entrenched With Relief Force Near Tien Tsin.

THE IMPORTANT DISPATCH TO WU.

on June 19 the Ministers Were About to Leave Pekin - Whether Ordered Away by the Government Was Not Stated-Chaffee Left Washington.

WASHINGTON, June 28.-The following cablegram was received at the navy department:

"CHE Foo, June 27.

Secretary Navy, Washington: Pekin force and ministers, reported with Pekin relief expedition, entrenched eight miles from Tien Tsin.

"KEMPFF." WASHINGTON, June 28.—The Chinese minister called on the secretary of state and communicated to him the contents of a dispatch which he had received from the Tsung Li Yamen at Pekin dated on the 19th instant. The dispatch states that the foreign ministers had before this date asked permission for the legation guards to enter the city, which permission has been granted; that they subsequently asked that these guards be reinforce, which the Chinese government was not disposed to permit.

The dispatch then went on to state that the consul general at Tien Tsinsupposed to be the French consul general-had telegraphed to the viceroy of Chih Li that the foreign admiral had demanded the surrender of the Taku forts, and that the foreign ministers were shortly to leave Pekin for Tien Tsin, with their guards.

Under what arrangements the foreign ministers left was not stated.

Minister Wu's dispatch was ominously silent on that point and though the minister himself maintained almost obstinately his confidence in the non-existence of a state of war, it was generally admitted that it will be difficult to accept his conclusion if it shall transpire that the Pekin government itself sent the ministers away with their passports, or what may come to the same thing with a guard as a safe conduct. At the state department, it is said that if it shall be explained that the imperial government did this, not with a purpose of rupturing diplomatic relations, but simply to ensure the safety of the ministers, which they were unable to guarantee as long as they remained in Pekin, then there is still ground for an understanding.

It was, however, pointed out that in such case the self-confessed inability of the imperial government to maintain peace and order at the capital would amount to an admission of its utter failure as a government, and would leave China in a state worse than that of actual war. In either event, it now appears to the satisfaction of the officials that there was absolute justification for such intervention as we have

offered in China.

The war department officials still insist that no orders have gone forward to send more troops to China than the Ninth regiment, now on its way from Manila, and the Sixth cavalry, which will sail from San Francisco next Sunday for Nagasaki, and perhaps Taku. It is said that with these two organizations and the marines now on Chinese soil, General Chaffee will have the full brigade to which his rank entitles him.

General Chaffee, accompanied by Lieutenant Hart, left for San Francisco, whence he is to sail for the Philippines.

SEYMOUR'S FORCE

MAY BE RELIEVED.

Women Missionaries Returning From the West River Ports-Foreign Troops Aggregate 20,000.

LONDON, June 28.—The composite brigade of 2,500 men who raised the investment of Tien Tsin and pushed on to help Admiral Seymour has probably saved him but the news has not yet reached Che Foo, the nearest wire point.

The last steamer arriving at Che Foo from Taku brought this message dated

Tien Tsin, Monday, June 25: "The Russian General in command of the reiief force had decided in view of Saturday's heavy fighting and marching that one day's rest for the troops was essential and that the advance

should not be resumed until to.day. "Meanwhile came Admiral Seymour's heliograph that his position was desperate and that he could only hold out two days. The relief started at dawn today

(Monday.) Several thousand Japanese left Taku Tien Tsin and altogether about 13.-

000 Japanese landed. The international troops now aggregate nearly 20,000, and Japan is preparing to send 20,000 more.
With British, American and other troops ordered to go, probably 60,000 men will be available in a month.

The Tong Shan refugees and the for- National Prohibition Conveneign engineers at Che Foo estimate the Chinese troops now in the field as 25,-000 drllled troops at Lutai, 25,000 at Shang Hai Wan, 15,000 driven off from Tien Tsin and 150,000 more.

All the students at the foreign hospitals in Cantom are leaving. Women missionaries are returning from the west river ports. There was a slight histurbance at Wo Chou Tuesday, while the somen were embarking. The crowd shouted, "kill the foreign devils."

DEATHS MAY NUMBER

OVER 2,000,000.

Klopsch's Estimate of What the Mortal ity Will Be In India-Blankets Desperately Needed.

LONDON, June 28.-Louis Klopsch, proprietor of the Christian Herald of New York, after spending a week in Paris on his way home from India, sailed for New York from Plymouth on board the Hamburg-American line steamer Pennsylvania. In an interview previous to his departure Mr. Klopsch said the mortality during the wet season in India was just commencing and musiassume stupendous proportions outnum bering the total of the deaths during the past six months from all causes.

Unless 20,000,000 blankets were quickly provided the monsoon, India's greatest blessing, would prove appallingly disastrous and, Mr. Klopsch also said, the mortality will exceed 2,000,000. He further asserted that 90 per cent of the cattle in the richest farming districts had perished.

Mr. Klopsch is thoroughly satisfie. with the methods adopted in the distribution of the American relief. One of his last acts in India was to buy 100,000 blankets for the sufferers.

ANCIENT LANGUAGES.

Catholic Clergymen Decide They Should Still Be Taught In the Church

PHILADELPHIA, June 28.—The session of the convention of Roman Catholic priests and educators was devoted to a discussion of the routine workings of seminaries. The Very Rev. Abbe A. L. Magnin, L. S., D. D., superior and president of the seminary of St. Sulpice and St. Mary's university, Baltimore, suggested a number of subjects bearing upon the retention of the Hebrew and Greek languages, relative importance of seminary courses and the conditions of admission to seminaries.

As the consensus of opinion favored the retention of Latin, as language of the church, so the trend of opinion was strongly in favor of continuing to make a knowledge of Greek and Hebrew obligatory. Throughout the conference it had been seen that the instructors of the Catholic church were not in sympathy with what is sometimes called the modern and advanced theory of educaiion, which had been steadily getting away from the study of dead languages.

resided as Both Temporary and Permanent Chairman-Made a Speech Bitterly Assailing the Administration In Its Position on the Canteen Law.

CHICAGO, June 28.—The national convention of the Prohibition party met in the First Regiment armory, Sixteenth street and Michigan avenue, being called to order by Chairman Oliver W. Stewart, of the national executive commit-

The invocation was delivered by Prof. John Talmadge Bergen, of Hope college, Holland.

Nearly 2,500 Prohibitionists, including the delegates to the national convention and to the state convention which met here the day before, gathered at the Palmer house and marched through the down town streets to the First regiment armory. Previous to the parade the reception committee had met Joshua Levering, of Baitimore, prohibition candidate for the presidency in 1896, and escorted him to the Palmer house.

Previous to the fall of the gavel the delegates from the New England States marched into the hall in a body, each delegate carrying a canteen with the letters 'U. S.," inverted, and bearing the legend, "Anti-canteen." They were liberally applauded. After the convention had come to order, Chairman Stewart proceeded to deliver his formal ad-

Chairman Stewart then introduced Dr. John H. Hill, of Chicago, who delivered a lengthy address of welcome. Several members of the first Prohibition convention, which was held in Chicago in 1869, were in the hall, some of them as delegates, and at Dr. Hill's request they were escorted to the plat-

Chairman Stewart then announced temporary officers, as follows:

Chairman Dickie then made a speech outlining the work to be done by the

"I believe the Prohibition party is on the eve of important events," said Mr, Dickie. "We represent a reform before which other reforms pale into insignificance or disappear altogether. Mr. Dickie bitterly assailed the national administration for its position on

At the conclusion of Chairman Dickie's speech, the rules and order of business were adopted and committees were appointed. A recess was then taken.

After the recess, the report of the committee on credentiais was not ready and, pending its completion, the convention was entertained by instrumental and vocal music in which prohibition was lauded. Representatives of the Young People's Prohibition League, of New York, were also introduced and spoke briefly on the work of that organ-

The report recommended Samuel Dickie, of Michigan, for permanent chairman and Colonel R. S. Cheves, of Tennessee for permanent secretary. It was adopted unanimously.

The list of national committeemen as selected by the delegates of the various states was then read and adopted. Among them were:

Maryland-Joshua Levering and Levi S. Nelson. Ohio-John Danner and Robert A.

Pennsylvania-A. A. Stevens and Charles R. Jones.

West Virginia-Thomas R. Carskadon and U. A. Clayton.

The Prohibition party will make its national campaign this year upon a platform of a single issue, the liquor traffic, all other issues being subordinated to Japan, up to June 5. this one question.

The platform, as adopted by the convention, bears solely upon the question of the suppression of the liquor traffic. In connection with this, however, the administration, and President McKinley in particular, are bitterly arraigned for the position taken on the anti-canteen law, the action on this being denounced as "treasonable." The delegates received these attacks with cheers.

A bitter fight took place in the committee on resolutions before the platform was finally agreed upon, the members being sharply divided over the question of a single issue or "broad" platform. The advocates of woman suffrage were particularly emphatic in demanding a suffrage plank, but after a session lasting for several hours, the matter was compromised by reporting a separate resolution favoring the granting of the franchise to women, and in this form the report of the committee on resolutions was adopted by the convention after considerable further

Expressions of various state delegations rather indicated the nomination of Woolley for president and H. B. Metcalf, of Rhode Island, for vice president. The voting strength of the third prominent candidate for the presidential nomination Hale Johnson, of Illinois, apparently decreased rapidly dur-ing the day to the gain of Mr. Woolley, and it appeared probable that the con-test today will be narrowed down to Mr. Woolley and Rev. Swallow. The latter's friends, however, confidently asserted that his nomination is assured.

THE MURDER OF ELLIS.

A Bover Described the Brutal Killing of the Puglish Missionary and

VICTORIA, B. C., June 28 .- The Shanghai Mercury says a member of the Boxers society, who saw the murder of Rev. Mr. Ellis, of the London mission, and of a Chinese missionary at Kung Tsun, gave the following account of the tragedy;

"On the 12th day of the fourth moon, the Boxers, numbering 57, crossed the river Tsz-Tsun and met the missionaries in a boat, They knew the Chinese was a Christain and at once attacked him, wounding him with their swords. They they dragged him out of the boat and tied him to a tree at the riverside. Then Mr. Ellis was tied with him and Mr. Dhao, another Chinese missonary was found. His toes and thumbs were bound together and he was carried to a tree near where the others were hung up. The arms of the missionaries were cut off, their heads hewn off, and after the bodies had been disemboweled they were cast into the river. The chapel of the mission was demolished aud the crowd went on their way.'

This was but one of many such out-

The irregularity consisted in the better resistance to the depression offered by some stocks. This was true of the steel stocks and of the coalers, the latter being affected by a good showing of earnings for May by the Erie and the Reading companies, by announcement of an advance in the price of coal by the Reading company and by reports that other companies would follow suit. Some of the soft coal roads were also strong on the good conditions in that trade.

But the railroad list as a whole gravitated downwards quite heavily. The buying demand which was in evidence Tuesday and Monday, and from which much had been hoped in rallying prices, showed increasing indifference and lassitude at the higher level attained. The course of the market was a striking testimony of the dominance of the crop prospects as an influence on prices.

The jury made its report yesterday and the prisoners indicted were arraigned before Judge W. W. Hole yesterday afternoon.

Sidney Burroughs, of East Liverpool, pleaded guilty to cutting with intent to wound. He slashed Frank Beatty's throat with a razor.

Before passing sentence Judge Hole said to the prisoner:

"How old are you?"

"A little past 21," replied Burroughs. "Have you ever been in prison?"

"Yes, sir."

"Where?"

"In the penitentiary at Columbus," said Burroughs, "but since I served my term I have been working and trying to lead a straight life, and this is the first trouble I have been in since I came out. I would not have got into this difficulty had I not been under the influence of liquor."

"My inclination," said the judge, "is to give you a reformatory sentence on account of your age, but the fact that you have served a term in the penitentiary precludes me from showing you this leniency. The sentence of the court is that you be confined in the Ohio penitentiary and kept at hard labor, but not in solitary confinement, for a period of two years."

BRYAN WANTS TO MEET SULZER.

Said to Have Asked For an Interview. Campau, of Michigan, Mentioned For Second Place-Declaration of Independence to Be Read at Convention.

KANSAS CITY, June 28.—Congressman William Sulzer, who is being boomed for vice president on the Democratic ticket, and Richard Croker and ex-Senator E. G. Murphy, of New York, will have a conference at Lincoln, Neb., with William J. Bryan before they come to Kansas City to attend the national convention.

Sterling Price, of Texas, who has opened headquarters here for Mr. Sulzer, received a telegram from that gentleman, saying he had left New York for Lincoln. Another telegram said Messrs. Croker and Murphy will be in the Nebraska capital on Friday night. Mr. Sulzer hopes to be on the ticket with Mr. Bryan, and it is said the latter expressed a desire to confer with him. Further than this Mr. Price would vouchsafe nothing.

President O'Connell, of the Sons of Liberty, the oldest organization in New York, was on his way to Kansas City, and will, it was said, open headquarters for Sulzer this evening or Friday. Fred Feigl, editor of the Tammany Times, another Sulzer boomer, may arrive Friday. The Pennsylvania delegation is due Sunday morning.

A convention innovation, the reading of the declaration of independence from the platform, will be introduced at the first session on July 4 and, according to the present program, the music and decorations of that day will be selected with a particular idea of commemorating the national idea.

The badges for the delegates have been received. They are an elaborate affair. There is an oxidized silver bar for the pin, below which hangs a silk flag about four inches long. To the flag is attached a medalion of gold or oxidized silver.

Detroit, June 28.—Daniel J. Campau, chairman of the Michigan Demo cratic state central committee and member of the national committee, was said to be in receipt of many letters from various states, urging him to become a candidate for the vice presidency before the Kansas City convention. Mr. Campau's political secretary declared in positive terms that Campau's name would be presented to the Kansas City convention as a vice presidential

The many and remarkable cures resulting from the

use of "Golden Medical Discovery" prove the soundness of Dr. Pierce's theory that in these days of haste and hurry the stomach is the common breeding place of disease. These cures also prove the soundness of Dr. Pierce's reasoning that "diseases which originate in the stomach must be cured through the stomach." The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is heaithy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach, "Golden Medical Discovery" takes the obstacles from Nature's way so that she can sustain life by her own methods.

Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

HE WAS MAD.

There Could Be No Doubt About the Condition of This Canine.

He was lying prone upon the pavement of Forest street, dreaming of the glorious days to come in the happy hunting grounds. A small boy, in possession of a package of fire crackers, appeared upon the scene of action. The youth succeeded in attaching the said explosives to the said canine's caudal appendage without attracting the attention of the sleeping and dreaming animal. Then a match was struck and the explosives were ignited and the circus began. The dog realized that something was wrong as he made an astounding leap into the middle of the highway, terrifiedly gazed at the rear portion of his anatomy, was momentarily shocked into quietude by the horror superinduced by the situation, and then tore down the highway with great leaps, while he gave tongue in a manner and style which convinced pedestrians that he was the worst scared and maddest dog in all this neck of woods.

CROKER TO SEE BRYAN

Going to Lincoln, Neb., For a Conference.

BRYAN WANTS TO MEET SULZER.

Said to Have Asked For an Interview. Campau, of Michigan, Mentioned For Second Place-Declaration of Independence to Be Read at Convention.

KANSAS CITY, June 28.—Congressman William Sulzer, who is being boomed for vice president on the Democratic ticket, and Richard Croker and ex-Senator E. G. Murphy, of New York, will have a conference at Lincoln, Neb., with William J. Bryan before they come to Kansas City to attend the national convention.

Sterling Price, of Texas, who has opened headquarters here for Mr. Sulzer, received a telegram from that gentleman, saying he had left New York for Lincoln. Another telegram said Messrs. Croker and Murphy will be in the Nebraska capital on Friday night. Mr. Sulzer hopes to be on the ticket with Mr. Bryan, and it is said the latter expressed a desire to confer with him. Further than this Mr. Price would vonchsafe nothing.

President O'Connell, of the Sons of Liberty, the oldest organization in New York, was on his way to Kansas City, and will, it was said, open headquarters for Sulzer this evening or Friday. Fred Feigl, editor of the Tammany Times, another Sulzer boomer, may arrive Friday. The Pennsylvania delegation is due Sunday morning.

A convention innovation, the reading of the declaration of independence from the platform, will be introduced at the first session on July 4 and, according to the present program, the music and decorations of that day will be selected with a particular idea of commemorating the national idea.

The badges for the delegates have been received. They are an elaborate affair. There is an oxidized silver bar for the pin, below which hangs a silk flag about four inches long. To the flag is attached a medalion of gold or oxidized silver.

DETROIT, June 28.—Daniel J. Campau, chairman of the Michigan Demo cratic state central committee and member of the national committee, was said to be in receipt of many letters from various states, urging him to become a candidate for the vice presidency before the Kansas City convention. Mr. Campau declared himself only as anxious to see the vice presidency go to a state which would draw the most, otherwise doubtful votes to the ticket.

Mr. Campau's political secretary declared in positive terms that Campau's name would be presented to the Kansas City convention as a vice presidential candidate.

Later, Mr. Campau said: "I am not a candidate, and my name will not be presented at the convention."

JR. O. U. A. M. INSURGENTS.

Convention Transacted Some Business at Lancaster, Pa., and Adjourned.

LANCASTER, Pa., June 28.—The insurgent faction of the state council of Jr. O. U A. M. declared vacant the posi tions of State Councilor Chas. S. Croll and Vice State Councilor Z. Taylor Wovensmith and elected in their places William A. Pike and Dr. S. D. Woods respectively. Acting Secretary Moench was directed to instruct the state secretary to conform to the orders of the council and to assume the office it Moench refused to obey the instructions.

The law committee was directed to draft a law making the state council a purely representative body, the past officers thus being barred out. It was decided to withdraw the proceedings in the supreme court, and a committee was appointed to look after the withdrawal of the Pennsylvanians in the National Orphans' home.

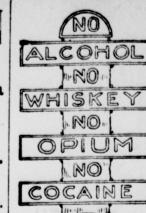

Philadelphia was selected as the next place of meeting, on the third Tuesday in September, 1900, and the council adjourned.

The many and remarkable cures resulting from the

use of "Golden Medical Discovery" prove the soundness of Dr. Pierce's theory that in these days of haste and hurry the stomach is the common breeding place of disease. These cures also prove the soundness of Dr. Pierce's reasoning that "diseases which originate in the stomach must be cured through the stomach." The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is healthy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach. "Golden Medical Discovery" takes the obstacles from Nature's way so that she can sustain life by her own methods.

Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

Camp Meeting in the Orchard.

Arrangements are almost complete for the Free Methodist camp meeting to be held in the orchard, beginning Friday, August 10, and continuing over two Sundays. Among the ministers who will assist in the work are Miss Celia Crill, of the Chester church, District Elder Zahniser, Rev. Stamp, of Butler; Rev. Whitcomb, of New Brighton; Rev. Spear, of Lazureville; Rev. Garrow, of Leechburg; Rev. Fay, of Mars; Miss Elliott, of Rochester; Rev. Wayne, of Tarentum.

Invitations have been extended to Rev. J. Barnhart, district elder of the Pittsburg district, and Rev. Albert Wilson, of Pittsburg, formerly of East Liverpool, and it is thought they will be present during a part of the meeting. It is expected that there will be 30 or 40 tents on the ground.

RECORDS.

can be justly proud of and thankful East Liverpool and you cannot get for. And then there are some records just the opposite.

DECORATE.

East Liverpool is usually as patriotic in the matter of decorations on the nation's birthday as any town in the country, but it is urged that on the Fourth of July this year especial effort be made to have the town look its best, and it is suggested that every citizen decorate his place of business and residence with the national colors. The visit of the Uniform Rank, Knights of Pythias, to this city for tests will be the main feature of the day in East Liverpool, and the suitable decoration of the city will not alone show the patriotism of the people, but hearted welcome which awaits the visitors from every resident of East | mean lot. Outside of five or six of ambition to pose before the public Liverpool. Do not forget to decorate. them in this city, they're the poorest as a financier, and the impression Put the city in gala dress and show the visitors that the patriotism of acquainted with. They'll beat you fair, much to her chagrin. the Ceramic City is matched by its hospitality.

OUR SOLDIER BOYS.

We refer to the men who are now fighting the insurgents in the Philippine islands, and the blue jackets and marines who may be compelled to face great numbers of a common foe in China. These are gallant and brave men, worthy of our warmest commendation; men who will face any danger at the word of command, and flinch under no circumstances. There are no braver soldiers on earth than those of Uncle Sam. Isn't it a burning shame that men can be found here at home who will give every aid and comfort to the open enemies of the United States, and thus stab our own gallant men in the back? Would it not be just and right to declare such miserable creatures traitors, and subject them to the fate and punishment that awaits treason? Is there not a point at which forbearance ceases to be a virtue, and has not that point been reached by fellows who give aid and comfort to the enemies of our country?

PECULIAR PROSPERITY.

DECORATE.

East Liverpool is usually as patriotic in the matter of decorations on the nation's birthday as any town in the country, but it is urged that on the Fourth of July this year especial effort be made to have the town look its best, and it is suggested that every citizen decorate his place of business and residence with the national colors. The visit of the Uniform Rank, Knights of Pythias, to this city for the competitive drill and other contests will be the main feature of the day in East Liverpool, and the suitable decoration of the city will not alone show the patriotism of the people, but will be an evidence of the warm hearted welcome which awaits the visitors from every resident of East Liverpool. Do not forget to decorate. Put the city in gala dress and show the visitors that the patriotism of acquainted with. They'll beat you the Ceramic City is matched by its hospitality.

A FISH-CATCHING FISH.

He Has a Mouth One-third the Size of His Body.

Most remarkable of strange fishes is the angler fish, whose very name seems a paradox. The fishing fish is nevertheless a reality and a stern one to all that approach those awful jaws of his. With a body the color of mud he generally lies in the shadow of some rock on the bottom of the sea, waiting motionless for the approach of his prey. He is provided with an odd kind of fin just over the mouth, and this is held out in front of him to give warning of the coming of something to be swallowed. One taken alive was experimented on, and it was found that if this projecting fin was touched with a stick, even though the stick did not come near the mouth, the jaws closed convulsively. This shows that the fin. by some provision of nature, closes the jaws as soon as it is touched.

The mouth is tremendous, growing to the width of a foot when the whole fish is only three feet long. One of these anglers was caught not long since, and, though it was only 25 inches long, a fish 15 inches long was found sticking in its throat. The angler is provided with peculiar teeth set in double or treble rows along the jaws and at the entrance of the throat. Some of these teeth are a foot long. He is not a pretty fish to look at, but he attends strictly to business and will swallow anything that touches his warning fin, whether it is meant for food or not.

All kinds of things have been found in the stomachs of anglers, from bits of lead and stone to fish almost as large as the angler itself. This is without doubt one of the most peculiar and interesting fish in the whole ocean .- St. Louis Globe-Democrat.

It is well known that the Chinese language is one of the most difficult to master, and for us to attempt this task after we have finished our school years is excessively trying and difficult. His mistake, I believe, was due entirely to putting the accent on the wrong syllable, which altered the whole sense of the words.

ODD OIL STRIKE.

A Company Formed to Develop a Field Near the County Infirmary.

Oil has been discovered on the farm of Mr. A. A. Fink, four and one-half miles south-west of Lisbon and three miles south of the county infirmary, or about twelve miles south of the city. A stock company, consisting of 14 Salem capitalists, has just been formed to develop the territory, says the Salem News. The company has secured options on more than 1,400 acres in the vicinity, and drilling will be commenced in a few days.

The presence of oil on the Fink farm has been manifested in a peculiar and unusual manner. This farm is situated on the summit of an elevation which includes the highest point in Columbiana county. On the topmost point lies a small basin, with no oil bearing rock above, and by digging to a depth of six feet in this basin a peculiar oil bearing sand is found which yields at least one-tenth of pure petroleum. The projectors think this unusual phenomena will bear investigation and are confident of striking oil The girl was at the depot and met a in paying quantities.

CAN THIS BE TRUE?

Did This Local Leader of the Liquor League Speak the Truth?

Editor News Review-I have the assurance, from an absolutely reliable source, that one of the leaders of the Liquor league of East Liverpool lately approached a member of our present council, and tried to secure the solemn promise of that member that he would vote against the ordinance forbidding the saloons to do business in this municipality, stating that five members had already given their solemn promise to this effect, and that but one more vote was needed in order to make the liquor and saloon element safe and secure in their traffic in this city. The member I refer to was not offered any bribe or pecuniary reward for his vote, but he was given to understand that he would be well taken care of by the league.

Did this fellow falsify when he stated that he had five men solid for the saloons and liquor league? We believe that he did. We know some of the men who voted to table the ordinance last night. Two of them are our personal friends. If we believed this fellow of the liquor league, we would be compelled to believe that our friends are lost to all sense of honor and manhood; that they had pledged their unqualified support to the rum traffic, and would vote in its favor every time, and are not open to the appeals of argument, right, justice and fair play. We do not believe this fellow. We still believe in and trust our friends, and will continue to do so until, by their actions and ballots, they have proven themselves to be unworthy the respect and esteem of all advocates of clean government and sober life.

SILVER RIDGE REUNION.

The Teacher of Forty Years Ago One of the Speakers at the

Eighth Annual.

The Silver Ridge school district, of Franklin township, held a reunion near Salineville recently. This was the eighth annual reunion of this district. About 1.500 persons, most of whom have attended school in that district, were present, and the occasion was one of rare pleasure to all old school mates who thus had a chance to meet and recount former experiences.

The exercises of the day added much to the pleasure of the gathering. A warm welcome to the visitors was expressed in a neat speech by Prof. Earl burg. Hayes, of Salineville, the present teacher of the school. Prof. McCrea, of Pittsburg, responded in an equally pleasing manner. Prof. McCrea taught in the Silver Ridge district 44 years ago. On the program also were other teachers and prominent persons connected at some time with the school.

The reunion was a delightful one and one that will long be remembered by the Silver Ridge graduates.

CAN THIS BE TRUE?

Did This Local Leader of the Liquor League Speak the

Truth?

Editor News Review-I have the assurance, from an absolutely reliable source, that one of the leaders of the Liquor league of East Liverpool lately approached a member of our present council, and tried to secure the solemn promise of that member that he would vote against the ordinance forbidding the saloons to do business in this municipality, stating that five members had already given their solemn promise to this effect, and that but one more vote was needed in order to make the liquor and saloon element safe and secure in their traffic in this city. The member I refer to was not offered any bribe or pecuniary reward for his vote, but he was given lis Baer, clerk of organization. to understand that he would be well taken care of by the league.

Did this fellow falsify when he stated that he had five men solid for the saloons and liquor league? We believe that he did. We know some of the men who voted to table the ordinance last night. Two of them are our personal friends. If we believed this fellow of the liquor league, we would be compelled to believe that our friends are lost to all sense of tration." honor and manhood; that they had pledged their unqualified support to the rum traffic, and would vote in its favor every time, and are not open to the appeals of argument, right, justice and fair play. We do not believe this fellow. We still believe in and trust our friends, and will continue to do so until, by their actions and ballots, they have proven themselves to be unworthy the respect and esteem of all advocates of clean government and sober life.

The Teacher of Forty Years Ago One of the Speakers at the

Eighth Annual.

The Silver Ridge school district, of Franklin township, held a reunion near Salineville recently. This was the eighth annual reunion of this district. About 1.500 persons, most of whom have attended school in that district, were present, and the occasion was one of rare pleasure to all old school mates who thus had a chance to meet and recount former experiences.

The exercises of the day added much to the pleasure of the gathering. A warm welcome to the visitors was expressed in a neat speech by Prof. Earl Hayes, of Salineville, the present teacher of the school. Prof. McCrea, of Pittsburg, responded in an equally pleasing manner. Prof. McCrea taught in the Silver Ridge district 44 years ago. On the program also were other teachers and prominent persons connected at some time with the

The reunion was a delightful one and one that will long be remembered by the Silver Ridge graduates.

MINISTERS IN PERIL.

Entrenched With Relief Force Near Tien Tsin.

THE IMPORTANT DISPATCH TO WU.

Dn June 19 the Ministers Were About to Leave Pekin - Whether Ordered Away by the Government Was Not Stated-Chaffee Left Washington.

WASHINGTON, June 28 .- The following cablegram was received at the navy department:

"CHE Foo, June 27.

Secretary Navy, Washington: Pekin force and ministers, reported with Pekin relief expedition, entrenched eight miles from Tien Tsin.

"KEMPFF."

WASHINGTON, June 28.—The Chinese minister called on the secretary of state and communicated to him the contents of a dispatch which he had received from the Tsung Li Yamen at Pekin dated on the 19th instant. The dispatch states that the foreign ministers had before this date asked permission for the legation guards to enter the city, which permission has been granted; that they subsequently asked that these guards be reinforce, which the Chinese government was not disposed to per-

The dispatch then went on to state that the consul general at Tien Tsinsupposed to be the French consul general-had telegraphed to the vicerov of Chih Li that the foreign admiral had demanded the surrender of the Taku forts, and that the foreign ministers were shortly to leave Pekin for Tien Tsin, with their guards.

Under what arrangements the foreign ministers left was not stated.

Minister Wu's dispatch was ominously silent on that point and though the minister himself maintained almost obstinately his confidence in the non-existence of a state of war, it was generally admitted that it will be difficult to accept his conclusion if it shall transpire that the Pekin government itself sent the ministers away with their passports, or what may come to the same thing with a guard as a safe conduct. At the state department, it is said that if it shall be explained that the imperial government did this, not with a purpose of rupturing diplomatic relations, but simply to ensure the safety of the ministers, which they were unable to guarantee as long as they remained in Pekin, then there is still ground for an understanding.

It was, however, pointed out that in such case the self-confessed inability of the imperial government to maintain peace and order at the capital would amount to an admission of its utter failure as a government, and would leave China in a state worse than that of actual war. In either event, it now appears to the satisfaction of the officials that there was absolute justification for such intervention as we have

offered in China.

The war department officials still insist that no orders have gone forward to send more troops to China than the Ninth regiment, now on its way from Manila, and the Sixth cavalry, which pice and St. Mary's university, Baltiwill sail from San Francisco next Sunday for Nagasaki, and perhaps Taku. It is said that with these two organizations and the marines now on Chinese soil, General Chaffee will have the full brigade to which his rank entitles him.

General Chaffee, accompanied by Lieutenant Hart, left for San Francisco, whence he is to sail for the Philippines.

SEYMOUR'S FORCE

MAY BE RELIEVED.

Women Missionaries Returning From the West River Ports-Foreign Troops Aggregate 20,000.

LONDON, June 28.—The composite brigade of 2,500 men who raised the investment of Tien Tsin and pushed on to help Admiral Seymour has probably saved him but the news has not yet reached Che Foo, the nearest wire point.

The last steamer arriving at Che Foo from Taku brought this message dated

Tien Tsin, Monday, June 25: "The Russian General in command of the reiief force had decided in view of Saturday's heavy fighting and marching that one day's rest for the troops was essential and that the advance should not be resumed until to.day.

"Meanwhile came Admiral Seymour's heliograph that his position was desperate and that he could only hold out two days. The relief started at dawn today

(Monday.) Several thousand Japanese left Taku Tien Tsin and altogether about 13.-

000 Japanese landed. The international troops now aggregate nearly 20,000, and Japan is preparing to send 20,000 more. With British, American and other troops ordered to go, probably 60,000 men will be available in a month.

The Tong Shan refugees and the foreign engineers at Che Foo estimate the Chinese troops now in the field as 25,-000 drilled troops at Lutai, 25,000 at Shang Hai Wan, 15,000 driven off from Tien Tsin and 150,000 more.

All the students at the foreign hospitals in Cantom are leaving. Women missionaries are returning from the west river ports. There was a slight kisturbance at Wo Chou Tuesday, while the comen were embarking. The crowd shouted, "Kill the foreign devils."

MURDERING NATIVES.

Pekin Advices Said Converts Were Victims of Increased Violence-Killing and Pillaging Is Going On.

VICTORIA, B. C., June 28.-Information was received here that dispatches to Yokohama from Pekin on June 13 stated that the murdering and pillaging of the native converts was being continued with increased violence.

Plague Case on a Steamer.

YOKOHAMA, June 15, via Victoria, B. C., June 28.-A case of plague was discovered on a P. & O. steamer. the first case to make its appearance here.

DEATHS MAY NUMBER

OVER 2,000,000.

Klopsch's Estimate of What the Mortal ity Will Be In India-Blankets Desperately Needed.

LONDON, June 28.—Louis Klopsch, proprietor of the Christian Herald of New York, after spending a week in Paris on his way home from India, sailed for New York from Plymouth on board the Hamburg-American line steamer Pennsylvania. In an interview previous to his departure Mr. Klopsch said the mortality during the wet season in India was just commencing and mus. assume stupendous proportions outnum bering the total of the deaths during the past six months from all causes.

Unless 20,000,000 blankets were quickly provided the monsoon, India's greatest blessing, would prove appallingly disastrous and, Mr. Klopsch also said, the mortality will exceed 2,000,000. He further asserted that 90 per cent of the cattle in the richest farming districts had perished.

Mr. Klopsch is thoroughly satisfied with the methods adopted in the distribution of the American relief. One of his last acts in India was to buy 100,000 blankets for the sufferers.

ANCIENT LANGUAGES.

Catholic Clergymen Decide They Should Still Be Taught In the Church Seminaries.

PHILADELPHIA, June 28.—The session of the convention of Roman Catholic priests and educators was devoted to a discussion of the routine workings of seminaries. The Very Rev. Abbe A. L. Magnin, L. S., D. D., superior and president of the seminary of St. Sulmore, suggested a number of subjects bearing upon the retention of the Hebrew and Greek languages, relative importance of seminary courses and the conditions of admission to seminaries.

As the consensus of opinion favored the retention of Latin, as language of the church, so the trend of opinion was strongly in favor of continuing to make a knowledge of Greek and Hebrew obligatory. Throughout the conference it had been seen that the instructors of the Catholic church were not in sympathy with what is sometimes called the modern and advanced theory of educaiion, which had been steadily getting away from the study of dead languages.

CLOSER UNION OF CHURCHES.

United Presbyterian Urged It at Chris tian Reformed Synod.

GRAND RAPIDS, Mich., June 28 .- The Christian Reformed church synod, which is in session in this city, was addressed by Rev. J. A. Reed, D. D., delegate from the United Presbyterian church.

He urged a closer union between the two churches, and recommended that the synod send one or more delegates to the Presbyterian convention in Des Moines, next May. The members of the synod seem to favor the idea, and two delegates may be sent.

National Prohibition Convention at Chicago.

DICKIE WIELDS THE GAVEL.

Presided as Both Temporary and Permanent Chairman-Made a Speech Bitterly Assailing the Administration In Its Position on the Canteen Law.

CHICAGO, June 28.—The national convention of the Prohibition party met in the First Regiment armory, Sixteenth street and Michigan avenue, being called to order by Chairman Oliver W. Stewart, of the national executive commit-

The invocation was delivered by Prof. John Talmadge Bergen, of Hope college, Holland.

Nearly 2,500 Prohibitionists, including the delegates to the national convention and to the state convention which met here the day before, gathered at the Palmer house and marched through the down town streets to the First regiment armory. Previous to the parade the reception committee had met Joshua Levering, of Baitimore, prohibition candidate for the presidency in 1896, and escorted him to the Palmer

Previous to the fall of the gavel the delegates from the New England States marched into the hall in a body, each delegate carrying a canteen with the letters 'U. "I believe the Prohibition party is on the eve of important events," said Mr, Dickie. "We represent a reform before which other reforms pale into insignificance or disappear altogether. The Democratic party stands for the continuance of the liquor traile, the Republican party stands for its perpetuation.

He also accused the government with using its consular service for gathering information for the use of distillers and brewers.

Mr. Dickie bitterly assailed the national administration for its position on "debauching the peoples of its new possessions in the Philippines."

At the conclusion of Chairman Dickie's speech, the rules and order of business were adopted and committees were appointed. A recess was then taken.

After the recess, the report of the committee on credentiais was not ready and, pending its completion, the convention was entertained by instrumental and vocal music in which prohibition was lauded. Representatives of the Young People's Prohibition League, of New York, were also introduced and spoke briefly on the work of that organization.

The report of the committee on credentials was then presented by Chairman Johann, who stated that the com mittee had decided that only those delegates present with certificates duly signed were entitled to seats. There were 693 delegates actually seated, representing 37 states. The report was adopted.

MINISTERS IN PERIL.

Entrenched With Relief Force Near Tien Tsin.

THE IMPORTANT DISPATCH TO WU.

Dn June 19 the Ministers Were About to Leave Pekin - Whether Ordered Away by the Government Was Not Stated-Chaffee Left Washington,

WASHINGTON, June 28.-The following cablegram was received at the navy department:

"CHE FOO, June 27.

Secretary Navy, Washington:

Pekin force and ministers, reported with Pekin relief expedition, entrenched eight miles from Tien Tsin.

"KEMPFF." WASHINGTON, June 28.—The Chinese minister called on the secretary of state and communicated to him the contents of a dispatch which he had received from the Tsung Li Yamen at Pekin dated on the 19th instant. The dispatch states that the foreign ministers covered on a P. & O. steamer, the first had before this date asked permission case to make its appearance here. for the legation guards to enter the city, which permission has been granted; that they subsequently asked that these guards be reinforce, which the Chinese government was not disposed to per-

The dispatch then went on to state that the consul general at Tien Tsinsupposed to be the French consul general-had telegraphed to the viceroy of Chih Li that the foreign admiral had demanded the surrender of the Taku forts, and that the foreign ministers were shortly to leave Pekin for Tien Tsin, with their guards.

Under what arrangements the foreign ministers left was not stated.

Minister Wu's dispatch was ominously silent on that point and though the minister himself maintained almost obstinately his confidence in the non-existence of a state of war, it was generally admitted that it will be difficult to accept his conclusion if it shall transpire that the Pekin government itself sent the ministers away with their passports, or what may come to the same thing with a guard as a safe conduct. At the state department, it is said that if it shall be explained that the imperial government did this, not with a purpose of rupturing diplomatic relations, but simply to ensure the safety of the ministers, which they were unable to guarantee as long as they remained in Pekin, then there is still ground for an understanding.

It was, however, pointed out that in such case the self-confessed inability of the imperial government to maintain peace and order at the capital would amount to an admission of its utter failure as a government, and would leave China in a state worse than that of actual war. In either event, it now appears to the satisfaction of the officials that there was absolute justification for such intervention as we have

The war department officials still insist that no orders have gone forward to send more troops to China than the Ninth regiment, now on its way from Manila, and the Sixth cavalry, which will sail from San Francisco next Sunday for Nagasaki, and perhaps Taku. It is said that with these two organizations and the marines now on Chinese soil, General Chaffee will have the full brigade to which his rank entitles him.

General Chaffee, accompanied by Lieutenant Hart, left for San Francisco, whence he is to sail for the Philippines.

SEYMOUR'S FORCE

MAY BE RELIEVED.

Women Missionaries Returning From the West River Ports-Foreign Troops Aggregate 20,000.

London, June 28.—The composite brigade of 2,500 men who raised the investment of Tien Tsin and pushed on to help Admiral Seymour has probably saved him but the news has not yet reached Che Foo, the nearest wire

The last steamer arriving at Che Foo from Taku brought this message dated Tien Tsin, Monday, June 25:

"The Russian General in command of the reiief force had decided in view of Saturday's heavy fighting and marching that one day's rest for the troops was essential and that the advance should not be resumed until to.day.

"Meanwhile came Admiral Seymour's heliograph that his position was desperate and that he could only hold out two days. The relief started at dawn today

(Monday.) Several thousand Japanese left Taku Tien Tsin and altogether about 13.-

000 Japanese landed. The international troops now aggregate nearly 20,000, and Japan is preparing to send 20,000 more. With British, American and other troops ordered to go, probably 60,000 men will be available in a month.

The Tong Shan refugees and the foreign engineers at Che Foo estimate the Chinese troops now in the field as 25,-000 drllled troops at Lutai, 25,000 at Shang Hai Wan, 15,000 driven off from Tien Tsin and 150,000 more.

All the students at the foreign hospitals in Cantom are leaving. Women missionaries are returning from the west river ports. There was a slight histurbance at Wo Chou Tuesday, while the comen were embarking. The crowd shouted, "Kill the foreign devils."

DEATHS MAY NUMBER

OVER 2,000,000.

Klopsch's Estimate of What the Mortal ity Will Be In India-Blankets Desperately Needed.

London, June 28.-Louis Klopsch, proprietor of the Christian Herald of New York, after spending a week in Paris on his way home from India, sailed for New York from Plymouth on board the Hamburg-American line steamer Pennsylvania. In an interview previous to his departure Mr. Klopsch said the mortality during the wet season in India was just commencing and mus. assume stupendous proportions outnum bering the total of the deaths during the past six months from all causes.

Unless 20,000,000 blankets were quickly provided the monsoon, India's greatest blessing, would prove appallingly disastrous and, Mr. Klopsch also said, the mortality will exceed 2,000,000. He further asserted that 90 per cent of the cattle in the richest farming districts had perished.

Mr. Klopsch is thoroughly satisfied with the methods adopted in the distribution of the American relief. One of his last acts in India was to buy 100,000 blankets for the sufferers.

ANCIENT LANGUAGES.

Catholic Clergymen Decide They Should Still Be Taught In the Church Seminaries.

PHILADELPHIA, June 28.—The session of the convention of Roman Catholic priests and educators was devoted to a discussion of the routine workings seminaries. The Very Rev. Abbe A. L. Magnin, L. S., D. D., superior and president of the seminary of St. Sulpice and St. Mary's university, Baltimore, suggested a number of subjects bearing upon the retention of the Hebrew and Greek languages, relative importance of seminary courses and the conditions of admission to seminaries.

As the consensus of opinion favored the retention of Latin, as language of the church, so the trend of opinion was strongly in favor of continuing to make a knowledge of Greek and Hebrew obligatory. Throughout the conference it had been seen that the instructors of the Catholic church were not in sympathy with what is sometimes called the modern and advanced theory of educaiion, which had been steadily getting away from the study of dead languages.

CLOSER UNION OF CHURCHES.

United Presbyterian Urged It at Chris tian Reformed Synod,

GRAND RAPIDS, Mich., June 28.-The Christian Reformed church synod, which is in session in this city, was addressed by Rev. J. A. Reed, D. D., delegate from the United Presbyterian church.

He urged a closer union between the two churches, and recommended that the synod send one or more delegates to the Presbyterian convention in Des Moines, next May. The members of the synod seem to favor the idea, and two delegates may be sent.

A DAY IN WALL STREET.

Prices Failed to Hold and. After Early Advance, Generally Turned Downward.

NEW YORK, June 28.—Prices failed to hold in Wednesday's stock market and, after an early period of advance, turned generally downwards until the average day night. There was some irregularity A hall game was played at the Ma- in the movement as amongst the induson's picnic yesterday between the trials and railroads, but the tone of the market during the latter part of the day was undeniably heavy. The irregularity consisted in the better resistance to the depression offered by some stocks. This was true of the steel stocks and of the coalers, the latter being affected by a good showing of earnings for May by the Erie and the Reading companies, by announcement of an advance in the price of coal by the Reading company and by reports that other companies would follow suit. Some of the soft coal roads were also strong on the good conditions in that trade.

But the railroad list as a whole gravitated downwards quite heavily. The buying demand which was in evidence Tuesday and Monday, and from which much had been hoped in rallying prices, showed increasing indifference and lassitude at the higher level attained. The course of the market was a striking testimony of the dominance of the crop prospects as an influence on prices.

London and the European bourses were all higher on the reports published abroad of the rescue of the foreign legations by Admiral Seymour's force at Pekin, and the opening here was strong in sympathy.

'rne Boy's "Friend."

A boy having been taken to task for violation of school rules, the principal, a woman, told him to ask his father to call at the school. Next day the boy appeared with a rather seedy looking man whom he introduced as his father. The head of the school and visitor had a talk, and the latter promised to do all in his power to make the boy see the error of his ways. Some days later the boy was overheard saying to some of his companions: "I played a good joke on Miss Blank. I introduced a bum as me father, and she never caught on."

"Wasn't that man your father?" asked one of the listeners.

"Nope," was the answer. "He was me friend."-Brooklyn Eagle.

A Probable Result.

"If people were only compelled to practice what they preach!" sighed the theorist.

"What good would that do?" demanded the practical man.

"It would make the world better, wouldn't it?"

"Oh, I don't know. I'm inclined to think that whatever changes we noticed would be in the preaching rather than in the practice."-Chicago Post.

His Shots.

"Charley, dear," said young Mrs. Torkins, "I want you to be more careful about the use of firearms."

"Why, I haven't"-"Charley, dear," she proceeded, with sweet severity, "you mustn't try to deceive me. I heard you telling yesterday about how you fell down on a long shot. If you must go in for such kick."-Washington Star.
